

**SwitchDesk**  
The Linux Solutions Company

## About SwitchDesk

SwitchDesk, the leading Linux Solutions Company, designs, plans, implements, supports and troubleshoots Linux, Microsoft and Novell environments. Since 2001, we have delivered solutions to a wide range of industries, including health, finance, manufacturing, transportation, education and government. Our clients include Dollar General, Tractor Supply Company, Federal Reserve Bank of Atlanta, Bank of New York, City of Los Angeles, Montgomery Baptist Health, and Ford, to name a few.

From the very beginning, four fundamental factors have ensured our continued success and truly set us apart from others:

- Understanding client needs
- Linux, Microsoft and Novell expertise
- Leadership in the community
- Guaranteed results

Our client understanding results in true partnerships – long-lasting, close and productive relationships that provide true client value. Our commitment to excellence is such that our clients are often satisfied before we are.

### Highly Qualified

SwitchDesk is one of the few Novell Platinum Partners in the country that is both a Novell Platinum Solution Provider and a Novell Platinum Training Partner. SwitchDesk was honored with the Linux Center of Excellence Award (of which there are only 10 in the United States and 25 worldwide) based on client evaluations. Chris Clark, President and CEO of SwitchDesk, served for 2 years on the Novell International Advisory Council and continues to serve as an informal adviser to Novell. As a Novell Platinum Solution Provider and Training Partner, SwitchDesk has unlimited access to Linux and Novell support, as well as exclusive access to advanced training for current and new technologies.

- SwitchDesk employs certified engineers, certified Linux professionals and certified Help Desk Technicians. SwitchDesk has an ongoing training program that enables our engineers to continue to grow their skill set, learn new technologies and enjoy satisfaction in their career.
- SwitchDesk is headquartered in Nashville, TN with a satellite office in Athens, AL. Additional resources are available in Marietta, GA, Haywood, TN and Little Rock AR.

### Partnering With You

It's not just technological expertise that differentiates our engineers and our services from all others. Our collaborative approach to designing solutions and partnering with clients creates true value. Under our team approach, we create a powerful synergy of varied skills, experience and levels of expertise. The net result is a service offering truly greater than the sum of its parts.

Our vision is to help you create the most reliable, secure and cost effective system to support your business. For us, the end result goes beyond the system itself – **it's about you being able to run your business.**
